Claims 9- 32 are pending in the present application at the time of examination

Remark of Applicants has been considered.

**This application is in condition for allowance except for the following formal matters:**

The specification is objected to for the following reason:

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed (see MPEP § 606.01).

A title such as –METHOD OF FABRICATING PRESSURE SENSOR  
MONOLITHICALLY INTEGRATED-- is suggested.

A new abstract is required that is clearly indicative the invention to which the claims are directed.

Note that, the claims are directed to a method of making a semiconductor device instead of to a semiconductor device.

Reference sign 26 is not associated with the corresponding Drawing No. 6.

Correction is required.

Page 10, line 21 and 29, change " Fig. 6" to – Fig. 5--

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

***Reasons for Indication of Allowable Subject Matter***

**Claims 9- 32 would be allowed.** The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed METHOD OF FABRICATING PRESSURE SENSOR MONOLITHICALLY INTEGRATED having the step of removal of a sacrificial layer and buried layer to thereby define a cavity and adjacent diaphragm for a pressure sensor and among other steps as cited in independent claims.

If Applicants are aware of better art than that which has been cited, they are required to call such to attention of the examiner.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
